

NOW PLAYING:

Use this button to display the current playlist in the list view (center section).
Tracks are shown in the order selected when the playlist was uploaded/created.
The ► icon shows the track currently playing.
Show the next track in the playlist by clicking ►

SEARCH RESULTS:

This shows the results (tracks) found in the latest search request.

PROGRAMS:

This section contains the playlists put together by our experts.
These contain excellent selections of tracks for every mood, genre, or sector.

Press "START PROGRAM" (at the bottom) and you'll see these options:

NOW: Start this playlist instead of the current playlist
NEXT: Replace the current queue
MIX: Mix this playlist with the current playlist

This section shows all your self-created playlists. On the right side of the screen you will find the tools and buttons you need to create and edit these playlists.

Enter artist names/song titles or keywords here, then press ENTER or click the magnifying glass to display the results in SEARCH RESULTS

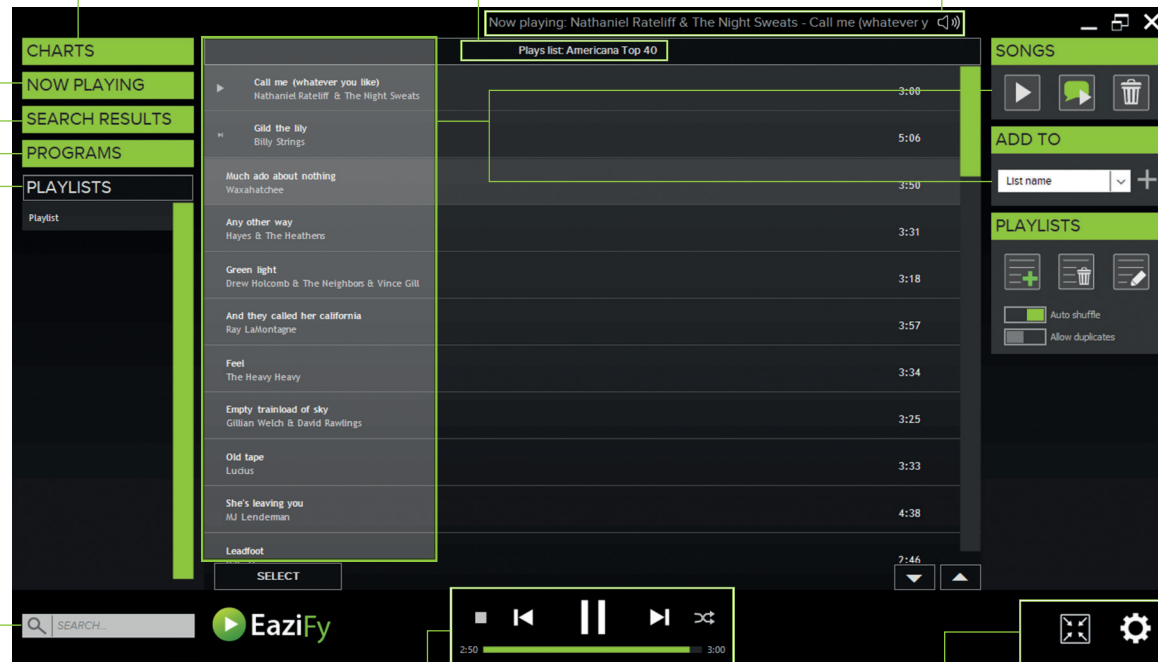

CHARTS:

This is where you'll find all the latest charts/hit-lists. You can select the chart you want on the left or by clicking on the relevant chart tile.

Press "START CHART" (at the bottom) and you will see the following options:

NOW: Start playing this chart instead of the current playlist (queue)
NEXT: Replace current queue (except track playing now)
MIX: Mix this chart with the current playlist (queue)

- stop playback
- ◀ play previous track
- || pause playback
- ▶ play next track
- ⌂ shuffle playlist ("NOW PLAYING")

progress of current track:
02:12 03:56

full screen/windowed

multiroom selection:

Select a room and corresponding playlist

settings:

Use Settings to adjust a more comprehensive range of functions including audio settings, local storage, playback preferences, etc. You can also use this menu to access the **SUPPORT** function. (useful when you're communicating with our support engineer)

TRACKS:

- ▶ play selected track immediately (instead of queue)
- ➡ play selected track, next in the queue. (this adds your chosen track to the playlist and automatically removes it after it plays)
- 🗑 remove selected track from the queue

ADD TO:

After selecting a track from the list (for example: from search results or another program/chart), you can add it by choosing one of your own lists from the pulldown menu and clicking on +

PLAYLISTS:

- ➕ create new playlist
- 🗑 delete playlist
- ✎ rename playlist

shuffle always:

If this function is activated, the list will always be shuffled

allow duplicates:

If this function is activated, the same track can be added to the playlist multiple times
